Work Experience

System Engineer

Tata Consultancy Services (TCS)
10/2023 - Present

At Tata Consultancy Services, I specialize in developing TypeScript code for generative AI models, collaborating with data scientists to meet project requirements. I utilize AWS CDK to replicate and troubleshoot error scenarios, enhancing model training through prompt engineering. My role involves optimizing scripts for the efficient and scalable training and deployment of AI models using AWS services. I am actively involved in the end-to-end AI development process, ensuring continuous improvement and seamless integration of TypeScript scripts.

Senior Systems Engineer

Infosys
01/2021 - 01/2021

Almost 2.5+ years of experience in Information technology, which includes demonstrated work experience in the design and
